

Item number	BR8406
Film layer thickness	18 μ
Material	HDPE min. 50% recycled content
Width	400 x 320
Length (m)	450
Chambers	4
Colour	transparent blue

Recycling-air mats with 4 chambers

Due to the HDPE multilayer film used with over 50% recycled content, the stability and tear resistance of the air foil pillows is even better than that of standard commercial pillows of this thickness. Protect your goods from unwanted damage during shipping. The air cushion mats line a box over a large area and thus offer optimum protection without weighing down the shipment.

With the air cushion machine activaAir[®] BP4000 you can create up to 15 m/min.
The air cushion mats with the listed specifications are also available as an ESD variant

Compatibility:
BP2000 – BP4000 ■■
